# GET THE MOST IN YOUR STORAGE SPACE!

Our self-storage facilities offer a variety of unit sizes. The Self Storage Space Calculator is used to help select the right space for you.

The term Cube used in the Self Storage Calculator is the cubic feet that an article will normally occupy.

1. Fill in the number of each article stored.
2. Multiply the number of each article by the cube number.
3. Put the answer in the Total Cube column.
4. Add the total number of cubic feet for all columns.
5. Refer to the chart below and pick the right space size for you!

This calculator assumes your articles are fully stackable. Somewhat more space may be required for aisles to permit access to all items.

## 8 FOOT CEILING
